

by **Delta Environmental Products, Inc.**

Whitewater alarm and control panels are the intelligent choice in control panel technology. Delta Environmental Products, Inc. manufactures a variety of control panels designed to meet specific customer needs.

The panels shown below represent just a few of the wide range of panels Delta produces.

#### CP 100

High water alarm panel in a NEMA 4X outdoor hinged door polycarbonate enclosure. Accepts a 115-volt high-level float switch.

Alarm light and audible alarm silence switch is mounted on enclosure door.

#### CP 105

Combination high water alarm and pump panel in a NEMA 4X outdoor hinged door polycarbonate enclosure.

Has a built-in main circuit breaker that will disconnect power to the panel, pump and alarm circuit for maintenance without entering the residence. Accepts a high level float and provides operating power to a maximum 1 HP, 16 Amp, 115 volt pump. Alarm light and audible alarm silence switch is mounted on enclosure door.

#### CP 110

Combination alarm and pump panel in a NEMA 3R outdoor hinged door painted steel enclosure. Accepts a high water level float switch and provides operating power to a maximum 1 HP, 16 Amp, 115 volt pump. Contains a main circuit breaker that disconnects all power to the panel. Has a main pump fuse that offers more protection to the pump than the pump internal thermal protector.

Fuse will blow before main breaker trips, allowing alarm circuit to continue to operate. Alarm circuit also has a fuse that will blow before the main breaker trips allowing the pump to continue to operate. Alarm light and audible alarm silence switch is mounted on enclosure door.

#### Options Available:

- Pump start counter
- Pump run light
- 15 minute minimum interval clock timer with manual-off-auto switch

#### CP 115

The CP 115 is identical to the CP 110 except all components are mounted in a NEMA 4X outdoor hinged door fiberglass enclosure.

#### CP 120

Combination alarm and pump panel in a NEMA 4X outdoor hinged door fiberglass enclosure. Accepts a high water level float switch and provides operating power to a maximum 1 HP, 16 Amps, 115 volt pump.

Contains a main circuit breaker that disconnects all power to the panel. Has a main pump fuse that offers more protection to pump than just the pump internal thermal protectors. Fuse will blow before main breaker trips allowing alarm circuit to continue to operate. Contains a hand-off-auto switch. Has extra terminals wired to accept a remote contact for other alarms. Alarm light and audible alarm silence switch is mounted on enclosure door.

internal thermal protectors. Fuse will blow before main breaker trips allowing alarm circuit to continue to operate. Contains a hand-off-auto switch. Has extra terminals wired to accept a remote contact for other alarms. Alarm light and audible alarm silence switch is mounted on enclosure door.

#### Options Available:

- Pump start counter
- Pump run light
- 15 minute minimum interval clock timer with manual-off-auto switch
- Run time meter
- Programmable repeat cycle timer with intervals as low as 1 minute

#### CP 1000

#### WHITEWATER PRO

Professional Series Universal Control Panel. The Whitewater Pro Universal Control Panel utilizes a programmable logic controller (PLC) that can perform all

functions and all options available to the CP 120. The Whitewater Pro is pre-programmed to accept all liquid level float switch arrangements.

Simplex or duplex configurations are available. 115 volt, 115/230 volt single phase or 115/230 volt 3 phase arrangements. The Whitewater Pro is furnished in a NEMA 4X hinged door fiberglass enclosure, alarm light and audible alarm silence switch is mounted on enclosure door.

#### Panel Capabilities:

- Pump start counter
- Pump run indication
- Run time indication
- Programmable repeat cycle timers
- Clock timers
- More

#### LIQUID LEVEL FLOAT SWITCHES

Mini mercury high liquid float switch  
Complete with bracket  
• 115 volt, single phase

Pump mercury float switch  
Complete with bracket  
• 115 volt, single phase  
• 14 amp rating  
• 230 volt, single phase  
• 13 amp rating

Delta Environmental Products, Inc.

- All panels can be supplied with U.L. and/or Canadian U.L. 508A listings upon request.
- Custom panels can be furnished to meet specific local requirements.
- All specifications are subject to change without notice.

Delta Environmental Products, Inc.

A respected leader in wastewater treatment with more than 25 years of technical design and manufacturing experience, Delta is committed to the continuing development of new products to lead us into the 21st century.

#### Other Delta Products

- **WHITEWATER**, Filter/Drip Systems
- Tablet and Liquid Chlorinators
- Aerobic Treatment Units
- High Pressure Pumps/Dosing Pumps
- Commercial Extended Aeration Treatment Plants
- Package Lift Stations
